

## G165 and G265 Power Supplies

The G165 (120V) and G265 (230V) will power up to two Cobra Ionizing Air Guns. They have a built-in air input connection, which supplies compressed air to the attached gun(s), eliminating the need for a separate air hose to the gun(s).

CE approved.

### Specifications:

G165	
Input Requirements	120V, 50/60 Hz
Output Voltage	5 kV, 3mA max
Number of outputs for static eliminators	2 Gun Capacity
Max Length of static bars which can be attached	N/A
Does the unit accept shielded cable	N/A
Acceptable for hazardous locations	No
G265	
Input Requirements	230V, 50/60 Hz
Output Voltage	5 kV, 3mA max
Number of outputs for static eliminators	2 Gun Capacity
Max Length of static bars which can be attached	N/A
Does the unit accept shielded cable	N/A
Acceptable for hazardous locations	No

### Part Numbers:

G165	4002996
